

# LABORATORY TECHNICIAN, PART TIME

## FARGO, NORTH DAKOTA

### OVERVIEW

---

Genovac Antibody Discovery, LLC is seeking a part-time laboratory technician to join our Fargo, ND team. This individual will support scientific operations by washing and sterilizing glassware, preparing buffers, and maintaining the laboratories in a clean, orderly manner. Depending on the individual's background and interest, the laboratory technician may also assist with execution and analysis of scientific experiments.

### RESPONSIBILITIES

---

- Wash and sterilize laboratory glassware according to company standard operating procedures
- Prepare buffers and solutions according to recipes and company standard operating procedures
- Maintain the laboratories in a clean and orderly state, including removal of trash
- Other duties as assigned

### PREFERRED EDUCATION & EXPERIENCE

---

*Exceptionally talented candidates with relevant experience are encouraged to apply, even if your qualifications do not strictly match those outlined below.*

- Highschool diploma
  - Highschool students who are seriously considering studying biotechnology or a related field after graduation are encouraged to apply
- Current enrollment in a 2- or 4-year biotechnology (or equivalent)
  - While individuals studying biotechnology or a related field are desired, this position may also be filled by an individual who is looking for part-time employment during their undergraduate studies

### REQUIRED SKILLS

---

- Ability to strictly follow written protocols
- Excellent oral and written communication skills
- Willingness to adapt to changing priorities and to learn new techniques

### SCHEDULE

---

The laboratory technician is a part-time position of up to 10 hours per week. Candidates must be able to work at least three days during the week, with a minimum of 2 hours per day. Night and weekend work is not required for this position.

In addition to a current resume, applicants should submit a cover letter that describes their interest in this position and details

### What We Offer

We are in a landmark moment in the history of life science, and Genovac is at the center of it. With our commitment to quality, we provide career opportunities that allow employees to grow and succeed, while helping make everybody's lives better. In this context we offer you an interesting task along with a good salary with a bonus system and an open and friendly working environment that fosters learning and growth.

### About Genovac

Genovac is a contract research and manufacturing organization offering advanced antibody discovery, development, and biologic production solutions. Genovac's proprietary immunization technologies, combined with multiple single cell screening technologies, including Bruker Beacon, enable success against the most challenging targets. Since its founding in 1999, Genovac has completed more than 3,700 projects, providing therapeutic antibody drug candidates to clients in North America, Europe, Australia, and Asia that have been developed into clinical and commercial drugs. In addition to its headquarters and labs in Fargo, North Dakota, Genovac operates another scientific and production facility in Freiberg, Germany.
